Student representative for the aces Academy

Dear students,

as you are surely aware, your school and partner school(s) are part of the aces - Academy of Central European Schools community and they have been supported in implementing their international school partnership project throughout the last months.

The aces Academy, which will take place from 31 May - 3 June 2016 in the Slovak Republic, is the central network event of the year and a participative platform for learning, exchange and reflection of experiences. Delegations of all schools (one teacher and one student per school) involved in this aces cycle will come together in order to share their experiences, exchange ideas, reflect upon their projects and have fun!

Being the student representative at the aces Academy is not only a privilege, but also a responsible task: It literally means that you will be representing your school. We expect that you are well informed about your school's aces project, that you are willing to participate actively in the meeting, to work with your teacher and project partners on your project and to pass on what you have learned and experienced at the meeting to your fellow students. Being a student representative at the Academy means that you are ready to be an active participant in aces.

Are you up for the challenge? If so, there are only 2 more conditions:

- You should be between 12 and 17 years old.
- As English is the aces working language you should speak it well enough to be able to communicate with the international participants.

Please inform your teacher, if you wish to attend the aces Academy. He/she will choose and register the student representative.

We are looking forward to meeting the delegations of 100 schools from 15 countries in May!

Best regards and wishes,

Elisabeth Czerniak
